ORANGEVILLE, ILLINOIS

FOREWORD

The P. C. Clark numismatic collection is outstanding. Mr. Clark collected the best specimens. A glance through the catalog will substantiate this. He has commissioned me to sell at auction his entire collection of gold, silver, and copper coins of the world, ancient and modern, United States, and foreign. The sale is bona-fide and absolute, no reserves. Times are improving. Low ebb of depression reached us last June. Business is on the upgrade, no doubt about it. Now is the best opportunity to buy. Prices are to rise sharply, and certainly, with a new prosperous era, and more new collectors. The quality of this material appears only a few times in a decade. We can not always offer such. Study the catalog carefully, and for some days. You need many items in this sale. Send a generous number of bids. You can never buy cheaper. A lot of purchases from this sale will add grace and value to your collection. The purchases will thrill you. You don't want to be disappointed. Make your bids liberal. I promise faithfully to buy under your bids where other offers permit, as if you had been present at the sale in person. We have customers in all states, and some foreign countries. Not all can attend in person at any sale. The distance is too great. Therefore, in fairness to all, we wish to have **ALL BIDS BY MAIL.**

M. H. BOLENDER.

TERMS OF SALE

Every coin came to me without attribution, and I assume the responsibility of the classifications, and guarantee such to be correct.

All coins and bills are guaranteed genuine.

New Bidders or customers sending in bids for the first time **must positively** give first-class reference, bank reference preferable, or else **send a deposit of at least 25% of the total amount of bids.** Otherwise, their bids will not be accepted. **To those known to me** who have established credit, a reference or deposit is not necessary, and purchases will be sent out promptly after the sale. **In appreciation** of this courtesy, the purchaser remits promptly.

The terms are prompt cash settlement after the sale, and no time given. Collectors who are not certain that they can pay promptly, are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. **Stamps accepted for accounts that are below one dollar only.**

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. **This fee is very low for the superior service I expect to give you.**

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt.** However, if a 2-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. **Be careful in making your bids.** Be sure that you bid on the lot you wish to buy, and **at so much per piece.**

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time

to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill, and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

THE MAGNIFICENT, EXTENSIVE, AND VALUABLE P. C. CLARK COLLECTION OF UNITED STATES PATTERN COINS

(About three hundred fifty specimens)

Pattern pieces represent one of the most interesting sections of the United States coinage. They embrace the many metallic attempts of the designers of the mint to produce a coin containing a new suggestion in the way of a device, a motto, or a plan of coinage, and through a study of these various pieces one may trace the development of many of the familiar coin designs, which long have been circulated throughout the country. These pieces, which are United States coins to all intents and purposes, excite the warmest interest on the part of many collectors, and the possessor of a fairly complete set of patterns may be said to own a metallic history of the United States coinage. Pattern coins are often more beautiful than the regular issues. The collection of nearly three hundred fifty pieces catalogued here represents the finest and largest collection ever sold at auction.

The A-W. numbers refer to the splendid book of Edgar H. Adams and William H. Woodin on the U.S. Pattern Coinage, the recognized standard authority.
